No. 11  
Sept. 29, 1934

Blue and White  
of Season Here  
With Princeton

The football season will be officially ushered into Marion on next Saturday when the Blue and White are to play the argument with Princeton. According to John Oliver, "almost" the weather will be the best that can be hoped for the occasion at this season.

The Blue and White is fast rounding into form and shows signs of becoming a championship outfit. The last fight with Brown, Wikel, Capt. Wikel and D. Ward is equal to the best in the C. I. A. At center we still have the old reliable John Oliver and at ends we have Travis and Hickie. Line and back will easily take care of the tackle position and Tawney, Hapner and Wikel will handle the situation on either side of the center. We have a lucky bunch of second string men who will have plenty of opportunities to get action before many games have been played this season.

The season's schedule is very attractive. Here is the program for the last three games:

- Sept. 29, Princeton at Marion
- Oct. 6, Marion at Brown
- Oct. 13, Brown at Marion
- Oct. 20, Marion at Marion
- Oct. 27, Marion at Marion
- Nov. 3, Marion at Marion
- Nov. 10, Marion at Marion
- Nov. 17, Marion at Marion
- Nov. 24, Marion at Marion

The home games will be played at Oak Park, Mo. Each having offered the grounds to the school for use in all athletic events.

#### RESIGNS PASTORATE

Rev. N. C. Lamb of Hannas Springs, who has for a number of years been pastor of the Presbyterian Church in Marion, has resigned owing to the advanced age of his wife. He preached his closing sermon at this church last Sunday in a most stirring manner. Mr. Lamb is 72 years old, has been in the ministry for 35 years and during the last 25 years has housed only two appointments although his pastorate was widely apart in this and other counties.

It is not known who will succeed him as pastor of the Presbyterian Church in Marion. He has been a member of the church since 1898 and has been a member of the church since 1898.

#### RESIDENCE FOR SALE

Home, four rooms and bath, two porches, in good repair. All new city water, gas, and sewer. Good water located on half acre road, just inside city limits. For particulars and terms call on George H. Manley, Box 250, Marion, Ky.

#### FOR SALE

One car or more. Call on 2887 or 2112 1st St. E. WINE JAMES

#### USE MORE COCA

Coca is one of the most nutritious foods if you get the right brand. It is cheap if you buy it at the right place. We sell NINE HINE Coca, one of the best brands.

One Pound Can, 10c. One-half pound can, 5c.

#### WHEELERS GROCERY

#### SCHOOL TAX

For 1932 is now due. Collector W. D. Cannon now has the books ready for the entire district.

Last year the Sheriff collected outside the City Limits.

This year all within the district will pay W. D. Cannon.

W. D. CANNON, Tax collector

#### EXAMINED FOR CERTIFICATES

Three applicants to teach school were before the county board of education Friday and Saturday of last week. They were Messrs. Keith Moore, Louis Hines and Mable Anna Ham, all of Paducah, Ind.

#### STONE TAIL GRASS

Dr. T. A. Frazer brought in a sample of his stone tail grass which he grew in his back yard, and of which he has four acres ready to harvest. The sample exhibited here is about eight and a half feet in height.

#### FIRST BAPTIST CHURCH

Rev. B. H. Thomas, the new pastor of the First Baptist Church, returned from Louisville, Wednesday, where he went to close his work as pastor of the Franklin Street Baptist Church. His wife and child accompanied him home and his household goods are being installed in the parsonage on Court Street.

The pastor will preach next Sunday morning and evening and a large congregation is expected. All are cordially invited.

Crittenden  
of Fred

The  
year for the  
omitted  
The course of study has been enlarged this year to include a Department of Home Economics under the direction of Miss Helen E. Williams of St. Petersburg, Fla., who received her degree in Home Economics from the Florida State College for Women last Spring. The department was quickly filled with eager students. There are forty enrolled in this department.

The enrollment up to date has reached more than 150 and new students are being enrolled every day. Last year during the entire year we enrolled 104 and if the same ratio continues until the close of the year the enrollment will reach nearly 200.

The senior class has organized with twenty-two members. Richard Hinkley is president. The class is planning to put out an Annual this year. In addition to the Annual the class is backing the Lyceum Course. This course is probably the best ever given in Marion High School.

The Parent Teacher Association has elected officers for the year and has begun to plan its work for the fall. Mrs. Ira T. Pierce is the new president and may be seen daily about the business of the organization.

The football team is going to be a wonder this year. From twenty-five to thirty boys are in uniform every day following the fall across the field. The coaches are of Marion are taking the school and the team.

Literary activities are beginning to take form. The faculty plan to give Oct. 15. On Oct. 27, Operetta, Nov. 3, Clifford Powell Trio, Dec. 10, Christmas Play.

#### OLD RESIDENT VISITS MARION

Mr. A. B. Threlkeld, a former Marion citizen, returned Monday for a short visit. Mr. Threlkeld left Marion two years ago and he returned when he got off the train Monday. He met with a crowd of strangers. Not a person recognized him, and not a soul was there he recognized. He might as well have been in Timbuktu. He says the town looks strange to him and the corn the boys around some flattened and some shriveled. After being here about four hours he says he saw and left the people (he) lived here, who he left in 1898 and W. H. Hines.

#### ARM BROKEN

J. H. Asher, Jr., the ten year old son of Mr. and Mrs. J. D. Asher, fell from the station platform at this 10. About Friday night and broke his left arm below the elbow in two places. This week and Frater dressed the wounds and the injuries are improving. The child had gone to the station to meet his sister and was playing on the platform with other boys when the accident occurred.

Mr. D. G. Hines of Fredonia was in Marion Tuesday.

Indicating  
one of the  
The county  
The committee  
every plan to take  
the displays that  
In case it rains  
such that there  
comfort that was  
year. Keen interest  
the dairy department  
in charge of John A. Moore. Crittenden is rapidly coming to the front as a dairy county and that is a very good index of better times for those engaged in it. There is great need of better quality milk cows, higher producing animals, ones that return more money for the feed invested. It will pay every one interested to visit that department on Fair Day.

The Woman's Club will have a booth for the sale of refreshments and lunch on the grounds so that will be taken care of.

The school exhibit in charge of Mrs. Dave Mattheis should interest every teacher. The outline of articles upon which the award will be based is as follows: manual training, miniature exhibits of all hand constructed wood work to be made by pupils themselves, ages 6 to 18.

Domestic science, hand made articles to be made by pupils between the ages of 6 and 18. School work, maps, drawings, composition and direct school work which can be exhibited.

And last but not least who will have the finest baby in the county? That is a great honor and whoever wins seeing the babies will miss one of the big parts of the Fair.

A list of events including the time of each will be printed in next week's paper. Watch for it and plan so you will not miss the event in which you are most interested.

#### THE NEW DALEM COMMUNITY CLUB

held a very successful picnic at their school last Saturday. Speeches, athletic games, a basket dinner and a fall game composed the program. The address of the day was given by Judge F. S. Norris.

The County Agent has held a number of poultry culling demonstrations in the county for the purpose of showing how to improve the flocks. From the flock and the interest evident speaks well for the progress to come through proper poultry care. He has a number of open dates the first week in October and communities that have never had this work would do well to arrange a date. He will be glad to hold a demonstration wherever there is sufficient interest. Calling intelligently practiced will help any poultry producer.

The Olive Branch Junior Agricultural Club is developing a poultry culling team under the instruction of Mrs. Ben Brennan and Miss Ethel Hunt. This club is composed of four girl members who are raising poultry for their project. Their first demonstration will be held at the Olive Branch school grounds on Saturday Sept. 29.

#### KENTUCKY CROP PROSPECTS

Sept. 29 crop prospects. September first indicated the production of a good crop of about 88,150,000 bu., as compared to 82,100,000 bushels for 1932 according to the September crop report issued by Commissioner of Agriculture W. S. Harkin. Farmers of Crittenden county would do well to see if they have the bugs and rats to adequately care for this large prospective crop.

#### SHORTAGE OF TEACHERS

County Superintendent J. L. F. Paris reports that there is a shortage of teachers for the rural schools in this county, there being six school districts that have not procured teachers. Mr. Paris attributes the shortage of teachers mainly to the workings of the new school laws.

#### PRIMA PEANUT BUTTER

PRIMA Peanut Butter is one of the very best brands on the market. We sell one-pound buckets for 25c. Five-pound buckets for 90c.

#### WHEELERS GROCERY

Subscribe for The Press.

Subscription reduced  
TO \$1.00 PER YEAR

The Evansville Courier in an advertisement published elsewhere in this issue, announces a reduction in subscription rates during October to \$1.00 per year.

This announcement will undoubtedly be of great interest to the people of this locality, and to those readers of The Courier whose subscriptions expire in October. A saving of \$2.00 is made as the regular rate of the Courier is \$3.00 per year.

During the month of October The Crittenden Press and the Evansville Courier (Daily) may be had for one year for \$3.00. To take advantage of the cutting rate of subscription must be brought or mailed to this office.

#### SCHOOL IMPROVEMENT CLUB

The School Improvement Club had its first meeting of the year on Friday, September 8. The business of the evening was for the election of officers.

Mrs. Ira T. Pierce was elected President, Mrs. W. W. McConnell, Vice President, Mrs. W. W. Haynes, Secretary and Mrs. F. L. Mayes, Treasurer.

Miss Jean Thompson, Mrs. Alvin Thompson, Mrs. James Henry and Mrs. F. L. Mayes were appointed tour leaders.

Plans for the year were discussed and the following committees were appointed:

Publicity—Mrs. C. J. Pierce, Miss Emma Terry and Myrtle Glass. Program—Mrs. Ira T. Pierce. Membership—Mrs. J. L. Mayes, C. W. Lamb, Mary K. Kendall, W. L. Hapner.

Social—Mrs. L. E. Yates, Josephine Clark, J. C. Burland, Gus Taylor, B. E. Jagers and Mrs. Helen Wilkins.

#### FORDS FERRY

Mr. and Mrs. Wathen Rankin of Dallas Texas are visiting in this section.

Mrs. Belle Hughes visited in this place one day recently.

Mrs. Zoa Curry moved to Marion last week.

W. F. Trout went to Shawnee town Saturday.

Dr. John Clement, wife and daughter of McLennan are visiting Mrs. Lela Clement of this place.

Miss Mattie Hines visited in this section last week.

M. L. Clift and Rex Wofford made a business trip to Sturgis last week.

Mr. and Mrs. Edward Brantley of Evansville spent Saturday guests at Mrs. Addie Brewer.

Walker Cook of Evansville passed thru here Saturday.

Mr. and Mrs. Henry Pruitt visited in our town Saturday.

Alvah Watson made a business trip to Roseville Thursday.

Mr. Hugh McConnell was in Marion one day recently.

Harold Rankin went to Shawnee town Saturday.

Mrs. Deane Clum and daughter were the guests of Mrs. Lela Clement and daughter Sunday.

Mr. and Mrs. Charles G. Henry and children, Louis and Nadine who have been visiting the family of S. S. Warden for sometime, for them home on Monday.

MANLEY AND GASKINS "NOT GUILTY"

Henderson Jury Returns Verdict of Acquittal on Assault Charge

George H. Manley and J. L. Gaskins, federal prohibition agents, were tried before Judge Hunt, at Henderson, Thursday on a charge of drawing concealed deadly weapons on George Green, former sheriff, when several agents and some members of the police force made a raid north of Henderson last June. After hearing the evidence the jury returned a verdict of acquittal.

Green testified that he and Ed Presley were driving a well on the farm of W. A. Stevens, who had given him permission to feed hogs there. While thus engaged he was surprised by the raiders. The first demand for "hands up" was complied with by Green, but Presley hesitated until a second command from Agent Gaskins, accompanied with a pointed rifle, caused him to raise his hands also.

The federal agents testified that a still was in operation in the Hoveston Bend and it was their duty to investigate; that the barrels found where Green was sinking the well indicated that they had been used as containers for mash, and that only one rifle, that of Gaskins, was presented at Green and Presley, which was caused by the refusal of Presley to obey orders.

Judge Helmer of Lexington was chief counsel for the prohibition agents, and F. J. Pentecost was special attorney for the prosecution.

At a former trial held in a magistrate's court the federal agents were given a fine of \$100 each.

#### MISSING WORD

The word omitted last week in the Missing Word Contest was "AND" and should have been in the Advertisement of the Marion Bank between the words "RESOURCES" and "MANAGEMENT."

Many contestants failed to locate the word last week and this week we are going to tell you that the omitted word this week begins with "I" and ends with the letter "S". With this hint all of our contestants will no doubt find it an easy task to locate the word and be sure to have your answer in by Tuesday afternoon.

#### CHAPEL HILL

Our school is progressing nicely with Miss Bernice Thompson teacher. Miss Nanette Miller of Marion visited her sister Mrs. M. J. Hill Sunday.

Mr. Harry Haynes and family of Wayne attended church at this place Sunday.

Mr. J. R. Spencer and family of Wayne were with us last Wednesday.

Rev. Hart filled his regular appointment at this place Sunday.

Mrs. M. J. Hill who has been in a hospital in Evansville for the past two weeks, returned home Saturday.

Joe Parr and family of Fredonia attended church at this place Sunday.

J. A. Hill and J. A. Towns filled their choir during the past week.

H. S. Hill and wife of Marion spent the past week with their son, M. J. Hill.

Mrs. Mable Oliver of Frances visited her sister Mrs. J. V. Adams last Sunday.

Marion Kentucky

### HAVE STAKE IN COMMUNITY

Home-Owning Citizens Feel Responsi  
bility of Their Position and Gov  
ern Themselves Accordingly.

It almost goes without saying that  
home ownership is by far the most  
valuable adjunct to government and  
that the former is a tremendous power  
in stabilizing the latter. The home  
constantly desires change, because  
wherever he pitches his tent he con  
sider himself to be at home. On the  
other hand, the responsible property  
owner abhors nothing so much as  
change, because his hearth is not one  
which can be moved and which would  
be the last thing he would wish to be  
affected. The classic illustration,  
which has been used before this by  
many writers, is that of Alexander's  
conquest of Persia; this country was  
a constant source of Civil war and  
rebellion until, acting upon the advice  
of one of the philosophers attached  
to his court, Alexander saw to it that  
the Persians became a nation of shop  
keepers, which in turn caused them to  
set up permanent dwellings and ulti  
mately to become the most peaceful  
and law-abiding citizens. The ir  
responsible cowboy was inclined in the  
old days to shoot up frontier towns,  
since if the neighborhood became too  
hot for him he could simply pull up  
stakes and "drift" to some other part  
of the country; nobody to his knowl  
edge in those days ever heard of a  
substantial citizen being guilty of  
that sort of conduct.—Exchange.

### WORK WITH DEFINITE OBJECT

Real Estate Men Have Right Idea in  
Their Advocacy of Zoning Sys  
tem for Cities.

The value and the salability of real  
estate depends upon what? Mostly  
upon the skill with which it is subdi  
vided, upon the transportation facili  
ties, the utilities and the street system  
which serve it; upon the parks and  
recreation facilities available to it; up  
on its outlook; upon the business and  
social wealth, and producing capacity  
to the community; and upon the pro  
tection given it against offensive use  
of neighboring property, says Jacob L.  
Crane Jr., zoning and city planning  
engineer and adviser on zoning for the  
Chicago Real Estate board.

The last of these factors is con  
trolled by zoning. All the others may  
be controlled very largely by city plan  
ning which deals with all of these  
things in a definite and comprehensive  
way. The real estate business, there  
fore, like all other business, to a large  
degree depends on the results of city  
planning wherever it is taken up.  
This explains why real estate men are  
so vitally interested in the subject, and  
why they are usually the first ones to  
support city planning and zoning pro  
jects.

### Aim to Prevent Fire Loss.

Let the city fire department be as  
efficient as is that of the district.  
There still remains much for the  
average citizen to do in preventing fire.  
After all, prevention is better than  
cure in this matter, as in all others.  
Even as modern medicine is coming  
around to a serious campaign through  
out the nation to prevent illness, rat  
her than cure it after it occurs, so a  
city may campaign strenuously to pre  
vent fires before they break out.

The responsibility of the individual  
man, woman or child, therefore, is the  
crux of the matter. Until, through ed  
ucating the public in every way pos  
sible to the necessity of such preven  
tion, the average person is made to be  
always on the watch for incipient  
fires and actively thinking about them,  
a community is not true to itself along  
these lines.

What greater absurdity, for in  
stance, than allowing a carelessly  
thrown match to set fire to a great  
building and then calling out half the  
fire-fighting equipment of a city, when  
the active thought of the man who  
threw the match might have prevent  
ed the whole thing?—Washington  
Star.

### Schools Use Buses.

There are 12,000 schools in the United  
States now using buses to trans  
port their pupils. The day of the lit  
tle red schoolhouse is numbered. Con  
solidated or community schools are  
taking their place because of the in  
creased educational facilities and  
standard permitted by pooling of ap  
propriations. Better buildings, better  
equipment, better instruction are the  
immediate result. But with consol  
idation comes the factor of distance,  
so buses were the answer and this  
form of transportation is making good  
for better education.—From Federal  
Traffic News.

### Teeth Grinding and Adenoids.

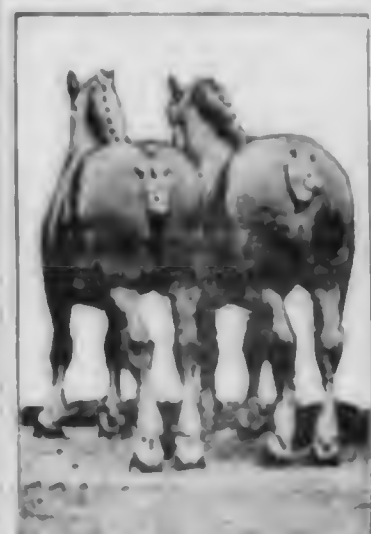

Among 2,300 collected cases of ade  
noid growths, Benjamin states grind  
ing the teeth was mentioned in 803  
cases. But of 1,791 personal cases  
Benjamin found: Snoring, 1,008  
times; impaired hearing, 1,004 times;  
enlarged of the upper air passages, 873  
times; grinding the teeth, 615 times;  
apnoea (inability to concentrate the  
mind), 600 times; enuresis, 442 times.  
Removal of the adenoids does not,  
however, always give relief from these  
symptoms.

If comparative figures from 14 of the  
leading horse-producing states can be  
taken as showing the tendency in all  
parts of the country, there has been a  
decrease since 1915 of about 20 per  
cent in the number of stallions in ser  
vice in the United States. Strides cross  
breeds and scrubs have been falling  
behind at a greater rate than the pure  
breeds, the latter decreasing a little  
less than 50 per cent. These state  
ments are based upon a report, "Stal  
lion Breeding Situation" just com  
piled by the United States Depart  
ment of Agriculture from reports from  
18 to 24 states having stallion enroll  
ment laws.

There has been a decrease in the to  
tal number of stallions and jacks every  
year since 1915, but the date of de  
cline slackened somewhat in 1921.  
Fourteen states having an enrollment  
of 49,121 stallions in 1915 had only  
18,992 in 1921, a decrease of 61 per  
cent. The stallions in 18 states in  
1921 74 per cent were purchased. In  
1915, only 21 per cent were registered  
stallions. As the numbers decrease the  
quality improves. Farmers are find  
ing that it pays to raise only good  
breeds and types.

The number of stallions of the light  
breeds has been decreasing more rap  
idly than the number of draft stal  
lions. The total of jacks has been  
increasing gradually until the last  
year, when there was a slight decrease.  
There has been a striking increase in  
the actual number of purebreds. The  
change in the ratio of jacks to stal  
lions is a fairly accurate measure of  
the popularity of the male. Twenty  
nine per cent of the total number of  
stallions and jacks enrolled for pub  
lic service in 19 states in 1915 were  
jacks, while in 18 states in 1921 only  
9.8 per cent were jacks.

Several states have recently enacted  
enrollment legislation that should lead  
to further improvement of breeding  
stock and the general run of work.

Purebred Stallions of Size and Quality.

stock. Pennsylvania and Indiana now  
period the use of only purebred stal  
lions and jacks for public service.  
They also disqualify stallions and  
jacks that are found or of such in  
ferior type or condition that they  
may prove a detriment to the horse  
breeding interests of those states.  
Michigan now has passed a similar  
law that will become operative Janu  
ary 1, 1923.

A copy of the complete report on  
stallion enrollment can be obtained by  
writing to the United States Depart  
ment of Agriculture, Washington, D. C.

### BALANCED FEEDS MAKE MEAT

With Sulfur Rations and Careful Su  
pervision Farmer Should Make  
More Pay.

There is no place on the farm where  
it will pay the farmer for keeping his  
weathered, aged and low thick rank  
stock, as when he is feeding his do  
mestic animals. Balanced rations will  
help to turn coarse feeds into high  
priced meat products but must be  
balanced rations, containing balanced per  
cent of nutrients. With luck, the  
farmer who can take the most rationing  
hogs to these days has been long to  
learn.

### GIVE PIGS MENTAL EXERCISE

Animals  
Pigs  
Pigs  
Pigs

That is the way to keep a pig  
happy and healthy. A pig that has  
nothing to do is a pig that is not  
happy and healthy. A pig that has  
nothing to do is a pig that is not  
happy and healthy. A pig that has  
nothing to do is a pig that is not  
happy and healthy.

### Lack of Protein

The lack of protein causes animals  
to shed their hair late in the spring  
and causes them to fatten slowly dur  
ing the early pasture season. The  
feeding of straw linseed causes this  
condition.

### Good Mixture for Lambs

Lambs should begin to nibble at  
grain when about two weeks of age.  
A good mixture is ground corn two  
parts, crushed oats two parts, linseed  
meal one part, wheat bran one part.
